

RAMP HANDLING

COURSE OBJECTIVES

The traveling public expects on-time departure. This creates pressure on all areas on all areas of the airline but none more so than those sections involved in the safe operation of our aircraft on a daily basis. Short cuts taken, items incorrectly stowed. Bad habits, lack of professional co-ordination and leadership can all lead to potentially disasters situations and on a regular basis. Be professional in your ramp man ship.

WHO SHOULD ATTEND

All staff actively employed on the ramp. Senior loaders and ramp coordinators. Managers, supervisors and instructors wishing to get professional basic skills in the area of professional ramp man ship.

DURATION

5 DAYS
